On-call Runbook: Shipment Platform

Engineering · Updated 3 February 2026

Rotation

On-call rotates weekly, Monday 10:00 to Monday 10:00 IST. The primary on-call must acknowledge a page within 5 minutes; if not, it escalates to the secondary after 10 minutes.

Severity levels

Severity	Definition	Response
Sev 1	Customer-facing outage or payments failing	Page immediately, open incident channel, update status page every 30 minutes
Sev 2	Degraded performance, workaround exists	Respond within 30 minutes
Sev 3	Minor bug, no customer impact	Ticket, fix in the next sprint

Payments failures

If payments fail, check the Payments Service health dashboard first, then connection counts on payments-db. Never restart payments-db without approval from the Head of Platform.
